

Board Committees

There are three standing Board committees: Nominating, Linkage, and Policy Committees which help the Board with its work.

Descriptions of and charters for these committees are located in the Board Policy Book appendix, and should be reviewed and updated annually per the Board policy.

Committee charters should be viewed as living documents; as the mission and procedures of these committees evolve, the changes should be captured in the charters. Ideally, the Board should review all its committee charters early in the Board year and make any needed revisions to the charters along with selecting new committee members.

Revision #1
