

Security: Panic Buttons and Cameras

Contractor and Maintenance:

Rocky Mountain Installs

<https://rockymtninstall.com/>

jeff@rockymtninstall.com

970-670-0255

Brand: ClareOne

Manufacturer:<https://www.clarecontrols.com/>

Controller: Tablet on the Admin Lobby Desk

5 Panic Buttons

1 at the AV booth

1 in the pulpit

1 with Jenn

1 in 225

1 at the Admin Lobby Desk

In the case of emergency press the button 2 times. This will contact the monitoring company and they will contact us via the tablet on the Admin Lobby Desk, if no answer call the 3 contacts, Holly, Jenn or Katie. They will call the police unless Katie, Jenn or Holly tell them not to.

Admin passwords and codes are in Dashlane.

We pay Rocky Mountain Installs in January for annual monitoring.

Camera 11: 192.168.11.15 Interior Sanctuary Side

Camera 12: 192.168.1.82 Interior Basement Drake Doors

Mobile App Connection:

Download and install the Clarevision App.

To add the NVR to the mobile app:

- Open the ClareVision app on your mobile device.
- Follow the on screen directions to get to the add device option.
- Select "Device is on a remote network".
- Select to either use the UID or the QR code.
 - image.png
 - UID:LX7Y2CE374291UYN111A
 - The password is stored in Dashlane
 - Device Name: Clare
- Click Next once it says the device has been successfully added.
- All the cameras will display live views on the next screen. You must select all the cameras to have a view of them.
- Click done. You will then be able to scroll though all the cameras and select the one you want to focus on.

To look at a historical view of a camera:

- Open the ClareVision app on your mobile device.
- Scroll until you find the camera you want to view.
- Select Event History and then the filter button (looks like a funnel) to enter the date you want to look into:
 - image.png
- Click Apply.
- A view of the camera and a list of Motion Detected Times will appear. Just scroll through them until you find the time you want to see.
- There is a lot of data so have patience.

Revision #1
